ReUnite®
## for iOS/Android

NIH
U.S. National Library of Medicine

ReUnite® is an app for family reunification that is meant to be used when a mass disaster, such as a typhoon, earthquake, or other widespread event, occurs. When such an event occurs, the NLM PEOPLE LOCATOR® website (https://pl.nlm.nih.gov) is activated to help persons affected by the disaster. ReUnite may be used to search for missing persons, or to report either missing or found persons.

Download on the App Store

GET IT ON Google Play

Device Compatibility:
- iOS: 8.0 or later. Compatible with iPhone, iPad, and iPod Touch.
- Android: 4.4 or later. Compatible with Android phones and tablets.
